MANDO AUTOMOTIVE INDIA PRIVATE LIMITED

Technology and quality are important for all companies. But quality and technology itself are Mando’s “vision,” not the “object” of improvement. The half-century history of challenges and passion of Mando to secure the only independent domestic technology in a country which lacked automotive parts technology has now turned into a living history of South Korean vehicles, the technology and quality of which are acknowledged in the world market. Mando will develop into a global company encompassing core parts, which are the basis of safe vehicles, to high value-added future cutting-edge automotive parts, based on talented human resources, cutting-edge technology and production facilities, and leading quality competitiveness.

The new CI of Mando, which is newly advancing into the global market, expresses the vision of a company beloved by customers and a sound, strong global company with the figure of a blooming flower.

The graphic motif, embodying inner harmonization bursting into bloom on the outside, expresses capabilities of construction, vehicles and distribution, the group’s three core businesses, coming together

to give mutual synergies and at the same time, symbolizes creating new future values including the group's management philosophy (customers, people and technology) and core values (Integrity, Frontier and Work Together).

Mando Automotive India Private Limited, a leading manufacturer and supplier of high- performance brake systems, shock absorbers and struts to Indian, European and American OEMs like Hyundai, Ford, KIA, Tata Motors, ISUZU, General Motors. The manufacturing practices have been synced in accordance with the stringent standards set by Mando, Korea. In so doing, they have been able to bring the advantage of Korean design excellence to their customers. They continuously endeavour to design and develop products that enhance driving comfort and vehicle safety. Highly advanced infrastructure further bolsters the company's competencies to deliver world-class products. Also Company does export their products to all over the world including countries like Turkey, Russia, Korea

Products: Brakes || Suspension || Steering System ||
