COMPANY DETAILS

TATA STEEL

The world of Tata Steel is one without boundaries – growing, changing, and challenging. A world that embraces different skills, continuous innovation, sustainable growth and better quality of life.

There are 29 publicly listed Tata enterprises, which include Tata Steel, Tata Motors, Tata Consultancy Services, Tata Power, Tata Chemicals, Tata Global Beverages, Tata Teleservices, Titan, Tata Communications and Indian Hotels. The group has a combined market capitalisation of around \$123 bn (as on March 31, 2020). Tata companies have made significant investments in different geographies. With our ever-increasing global footprint, we are now reaching out to customers in the farthest corners of the world. We touch upon lives across the globe and have an employee strength of over 750,000, representing the rock-solid company that we are. Several Tata group companies have achieved leadership positions globally in their areas of operation.

The Tata group's value system directs the growth and business of all sectors we operate in. Two-thirds of the equity of Tata Sons, the Tata group holding company, is held by philanthropic Trusts that have created national institutions for science and technology, medical research, social studies, and the performing arts. Cutting-edge innovation, a stringent focus on quality, sustainable operations and business excellence are the hallmarks of the trust the Tata name is best recognized for.

We touch the lives of millions of people across the world every day with the steel that we produce. And it is highly likely that Tata Steel has affected your life today, though you may not know it. From the vehicle you drive, to the house you live in; from the bridges you cross, to the hand tools that you use, we strive to deliver unparalleled quality through our customised value-added solutions to make your life easier. This is made possible by our commitment to a culture of continuous improvement, through which we drive operational excellence in processes, products and people. Tata Steel, with an annual crude steel capacity of 34 million tonnes per annum (MnTPA), is one of the world's most geographically diversified steel producers. We are one of the few steel operations that are fully integrated – from mining to the manufacturing and marketing of finished products. Continuous improvement in our product and service portfolio, along with success in value creating initiatives for customers, allows us to serve global growth markets. Today, we have our operations and commercial presence across the world. A Great Place to Work-Certified™ organisation, Tata Steel, together with its subsidiaries, associates, and joint ventures, is spread across five continents with an employee base of over 65,000. The group recorded a consolidated turnover of INR 1,56,294 crore in the financial year ending March 21. Our Raw Material operations are spread across India and Canada which help us to be self-sufficient in steel production.

Key manufacturing functions are performed by the raw materials and iron-making groups, while Shared Services provides maintenance support for a smooth production. In India, our downstream business activities are structured into strategic business units such as Ferro-Alloys and Minerals, Tubes, Wires, Bearings, Agrico, Industrial By-products Management & Tata Growth Shop.
