BASF CATALYST

As a global division of BASF SE, Ludwigshafen, Germany, the Catalysts division is the world's leading supplier of environmental and process catalysts and a leading supplier of battery materials and battery recycling services. The group employs more than 8,000, with over 30 manufacturing sites worldwide. We develop and produce mobile emissions catalysts as well as process catalysts and technologies for a broad range of customers worldwide. The Catalysts division also provides precious metals procurement, sales and related services. We continue to expand our leading role in catalyst technology through continuous process and product innovation. BASF is also a leading cathode active material (CAM) and recycling service supplier to battery producers for electrified vehicles around the world. Check out the Catalysts fact sheet for more information.

Research and Innovation

Successful research combines market input with scientific insights to develop innovative products. Innovation in catalysis is crucial for all our product groups. For Mobile Emissions Catalysts, the focus is on improved products to meet new exhaust gas standards, especially for diesel. For Process Catalysts and Technologies, priority is given to developing new and improved products for the process chemicals industry.

Our Expertise

At BASF, we hire and work with world-leading scientists, product specialists and industry experts who are at the cutting edge of technology and innovation.

This combined knowledge sets us apart from our competitors and ensures that you have all the resources needed to build on your success and lead the way forward. Contact us today to get started.

Innovations and Awards

We have over 1,100 scientists in catalysts globally developing innovative solutions to help make our customers more successful. They are further supported by over 7,000 scientists in the BASF technology organization. One measure of their success is the awards and other forms of recognition they receive.
