Dated: 24/05/2023

NOTICE

(An Initiative towards Youth Empowerment)

All the students of diploma on EE, ECE, CSE & ME of sessions: 2019-22, 2018-21, 2017-20, 2016-19 are hereby informed that **"DRDO -ARDE"** is shortly going to do online/ offline /recruitment/ Apprenticeship/ placement program.

COMPANY DETAILS

DEFENCE RESEARCH AND DEVELOPMENT ORGANISATION (DRDO-ARDE)

The Armament Research & Development Establishment (ARDE) is primarily concerned with research, design and development in the field of conventional armaments for Defence Services. ARDE has expertise in the area of development of small arms, artillery guns, rocket systems, air-delivered munitions and warheads. ARDE has established advanced infrastructural facilities and required technologies for design and development of arms and artillery. DRDO is the R&D wing of Ministry of Defence, Govt of India, with a vision to empower India with cuttingedge defence technologies and a mission to achieve self-reliance in critical defence technologies and systems, while equipping our armed forces with state-of-the-art weapon systems and equipment in accordance with requirements laid down by the three Services. DRDO's pursuit of self-reliance and successful indigenous development and production of strategic systems and platforms such as Agni and Prithvi series of missiles; light combat aircraft, Tejas; multi-barrel rocket launcher, Pinaka; air defence system, Akash; a wide range of radars and electronic warfare systems; etc., have given quantum jump to India's military might, generating effective deterrence and providing crucial leverage. "Balasya Mulam Vigyanam"—the source of strength is science—drives the nation in peace and war. DRDO has firm determination to make the nation strong and self-reliant in terms of science and technology, especially in the field of military technologies. DRDO was formed in 1958 from the amalgamation of the then already functioning Technical Development Establishment (TDEs) of the Indian Army and the Directorate of Technical Development & Production (DTDP) with the Defence

Science Organisation (DSO). DRDO was then a small organisation with 10 establishments or laboratories. Over the years, it has grown multi-directionally in terms of the variety of subject disciplines, number of laboratories, achievements and stature. Today, DRDO is a network of more than 50 laboratories which are deeply engaged in developing defence technologies covering various disciplines, like aeronautics, armaments, electronics, combat vehicles, engineering systems, instrumentation, missiles, advanced computing and simulation, special materials, naval systems, life sciences, training, information systems and agriculture. Several major projects for the development of missiles, armaments, light combat aircrafts, radars, electronic warfare systems etc. are on hand and significant achievements have already been made in several such technologies.
