ENGINEERED SOLUTIONS

SIGMA ELECTRIC MANUFACTURING CORPORATION

Sigma is a leading, vertically integrated manufacturer of electrical fittings and other precision engineered solutions serving as a trusted, reliable supply chain partner to a global customer base. We manufacture and sell metal castings and injection molded products and accessories used in a variety of industries including commercial, industrial and residential construction, and power transmission.

Ten world-class manufacturing plants in India and Mexico produce castings and components in a wide range of material grades and alloys such as aluminium, zinc, copper, iron (grey, malleable, and ductile), stainless steel, and steel. Their excellent facilities boast a UL-accredited lab able to perform tests under UL's Witness Test Data program, a state-of-the-art tool room, R&D centre, and liquid painting and powder coating operations. In addition, Sigma has a special purpose machine design/development centre, high-end precision machining and sub-assembly capabilities along with global supply chain management expertise.

Our 180,000 sq. ft. warehouse / distribution and technical centre near Raleigh, NC, USA services their large North American customer base. All Sigma locations practice lean manufacturing and are certified

for the latest quality management systems. In addition, they offer their customers the peace of mind that comes with knowing Sigma is compliant with environmental and global safety standards.

Sigma Electric Mexico (formerly known as Microcast Technologies Mexicana) manufacturing set up includes die casting machines in the 400 -1100T range, high end vertical machining centres & Powder & liquid painting facilities. The die casting machines are equipped with the centralised Vacuum system & digital process control. Additional processes include FIP (Foam in place), Impregnation, pad printing, Stencilling and Silk-Screening, Laser Engraving etc. Microcast has proven ability to offer complex value added sub assembled components.
