COMPANY DETAILS:

TATA TOYO RADIATORS LIMITED

TATA Toyo is one of the group company of TATA AutoComp Systems Limited. One of TATA Toyo's strongest assets is their team of best in class and experienced engineers in mechanical, manufacturing, and electronic. They are dedicated to providing remarkable engineering services in design, prototyping, tool making, product validation and manufacturing set up. Such multi-disciplinary experience handles a wide range of products which provides a competitive edge in engineering development over other manufacturers. Engineering team in TATA Toyo can cater the customer's requirement for India as well as outside India market requirement as they have also worked on the many other global projects.

The company has manufacturing capacity of over 3.67 million units per annum. With newly developed stacked plate oil coolers and two wheeler radiators, the number will increase further. The facility is capable of manufacturing parts of heat exchangers at a high level of quality and consistency, ensured through a complete range of testing and validation equipment's that carry out performance, reliability and durability tests, and conformance to global customer standards.

Tata Toyo Radiator, a joint venture between Tata AutoComp Systems, T. RAD (40.25%) and Mitsubishi (8.75%) was established in 1998. It manufactures heat exchangers from multi-layered aluminium, which provides good corrosion resistance and durability against mechanical and thermal shocks for automotive and non-automotive applications. These products are environment-friendly, have higher heat transfer rates than traditional copper brass heat exchangers, are significantly lower-cost, and offer higher product life and durability. The company also manufactures stainless steel EGR coolers and oil coolers.
